Trademark Poker is quite simply the premier source of poker and casino-related merchandise for the home gaming and commercial markets. Whether supplying merchants in the U.S., Canada or overseas, Trademark Poker has established itself as the industry leader, boasting the largest selection of products and the most competitive pricing. The success of our clients is a direct result of the Trademark Poker formula – offer high quality, proven products at import level pricing with the convenience of same-day domestic shipping. Our U.S. warehouses total nearly 100,000 square feet of constant inventory and a fully-staffed fulfillment team. Partnering with Trademark Poker will eliminate the risk and danger of overseas transactions – maintain your business's capital and liquidity; receive product in days as opposed to months; and gain access to innovative and quality products.

Lower Prices – Trademark Poker's overseas factories produce huge volumes of product. The result is a factory-direct wholesale price that local distributors cannot begin to match.

Delivery – Inventory! Inventory! Inventory! There is virtually no delay in shipping as most of our orders are fulfilled the same day. An additional benefit is our attractive shipping rates. Given the sheer volume of orders and trucks leaving our facility, Trademark Poker passes on the low freight charges to you.

New Products – Trademark Poker refuses to rest on its laurels. We are consistently first to market with exciting new products, innovations, designs, etc. We are trailblazers while our competitors watch and copy. A Trademark Poker relationship guarantees you the higher profit margins expected at the beginning of a product's life cycle.

Licensed Products – Trademark Poker is not the industry leader by accident. The world's top poker professionals recognize Trademark Poker as the supplier of choice. Gain that desired level of exclusivity by securing our line of licensed products. In 2005, we are taking orders for Daniel Negreanu's Exclusive Texas Hold'Em Poker Tournament Sets, as well as Poker Card Covers featuring 6 of the world's top players and Major League Baseball and National Basketball Association chip sets featuring individual teams. All of these products are available in full color retail style packaging, ready for your store's shelf. Other licensed products include items endorsed by the likes of the "Professor of Poker" Howard Lederer, 9-time World Series Champion Phil Hellmuth, as well as the cast of players seen on television every night.

We now have the latest, state-of-the-art Paulson Casino chips available. Standard Stock Chips are now available. The design and art can be seen to your left.

Each chip is made with the PAULSON CHIPS mold and has the same weight, workmanship, and material used in every Paulson Chip. These chips are the same quality as those used in the casinos like Mirage and Bellagio.

CUSTOM PAULSON PRODUCT

There is a minimum order of 250,000 pieces for custom product. Your custom product will be limited to using the same color base and edge spots as illustrated.

Your custom product will not have any limitations on the inlay, as long as it does not conflict with any operating casino name. All registered trademarks and copyright art will require release signatures.

Financing is available for large orders.
